prised in the past month, 345,000 bales this year, against 327,000 bales last year for Great Britain, and 280,000 bales against 260,000 for the Continent. These items, added to the figures given in the previous report, make a total for nine months of 2,676,000, against 2,498,000 for Great Britain, and 2,169,000.

The last week was a very quiet one at the banks as business is now at the low ebb of the 10:00 p.m. igninst 2,033,000 for the Continent. 'It is & Grensis & N. O. well known that a large quantity of-cotton forwarded by importers to spinners direct has not been reported to the Cotton Brokers Association, and there are good reasons for be-lieving that the usual annual stock-taking, iver & Other Mails. which takes place at the end of September, will disclose a considerable deficit, compared with the published estimate. The greater part of any deficit shown on stock-taking will have to be added to consumption; and it is possible that the weekly rate may be increased to 70,000 bales of 400 pounds, or over 62,000 bales of 450 pounds, which figure is really indicated by the increased weight of yarn and goods exported. The exceptionally large proportion of the American crop taken by the Continent and

by American spinners has cut down the ship-ment to Great Britain to so comparatively limited a compass that the present visible supply for the United Kingdom is only about menday and Friday. hursday and Saturday, resday and Friday, and Friday, o and Saturday, hursday and Saturday. the same as it was at this time last year while the rate of consumption, present and prospective, is much larger, and the range of prices much lower. This explains the strength displayed by the market during the past fortnight, in the course of which prices have gained 3-16d per pound. The advance which has taken place will bring more cotton to Liverpool, and bring it quicker than would otherwise have been the case; but the prevalent opinion here is that a further rise will be witnessed before the close of the season. Afterward everything will depend on the prospects for the new crop which as forced. The last week was a very quiet one at the banks as business is now at the low ebb of the summer season. No changes have taken place, except that the money rate hardens under the more frequent calls for loans; 6, 7 and 8 per cent, are got, the latter some banks are strictly requiring from August 1st and are strictly requiring from August 1st and onward. Local stocks arefin good/demand, but holders show no disposition to sell; Charleston railroad stock has been declining with other stock, generally quoting 70 in New York. The New York Bulletin says: "Foreign exchange was dull, with a declining tendency. Some of the bankers reduced their rates half a cent for both long and short sterling. A further reduction of one cent would admit of specie importations without loss. Money continued easy at 24@3 per cent, on call. Time loans were nominal. Whisky A full description of the new City of Vicksburg will be found on the fourth page of this morning's APPEAL. She is a dandy and no mistake. This is the second boat of the name which Captain Robert K. Riley has had command, he having put in seven good years on the one which was sunk up a Ashport over a year ago. Captain Billy Blenker, the chief clerk, is delighted with

his new quarters, and thinks his boat the bes on the river. That he will sustain his well earned reputation for politeness and genera attention to the comfort of his guests is eer tain. The other officers of the City of Vicks burg are: Clem. Nolte, second clerk; Loui Price, third clerk; Charles Zeigler and Ben Berry, pilots; Wm. Brannick and Mike Wolfe, engineers; Wm. Macatlin and Mike Manning, mates; Alf. Dickson, steward; Wm. Walkinson, carpenter; Aleck Bryan, watch-man and electrician of the Brush light. Ben Prather, M.D., a regular graduate and as accomplished pharmacist, has charge of the RIVERS AND WEATHER.
